

NEW YORKISMS.

From Our Own Correspondent. NEW YORK, April 4, 1870. Coming and Going. It seems Prince Arthur is going home, and that Prince Pierre Bonaparte is coming. If they could exchange confidences for a little while, what secrets of society the English scion might pour into the ear of the French imperial offspring!

A Young Woman of the Name of Smith. Still another newspaper theatrical squabble. Upon Saturday morning one of the reporters on the Herald received a note informing him that one of the coryphees at the Grand Opera House had been severely burned by the spilling over of the magnesium and alcohol by which the flame-bau flames in the demon can-can are produced.

Two or Three Goids in succession will, with many constitutions, securely establish the seeds of Consumption in the system, thus converting what was originally a simple, curable affection into one generally fatal. While ordinary prudence, therefore, makes it the business of every one to take care of a Cold until it is got rid of, intelligent experience fortunately presents a remedy in Dr. D. JAYNE'S EXPECTORANT, thoroughly adapted to remove speedily all Coughs and Colds, and one equally effective in the primary stages of Consumption, Asthma, and Bronchitis. Sold by all Druggists.

Mr. Woodhull in the Field. Mrs. Victoria C. Woodhull, one of the firm of Woodhull & Claflin, brokers in Wall street, has published a card in which she announces her intention to become President of the United States. She says she has deliberately and of her own accord announced her intention, and that she has the means, courage, energy, and strength necessary to effect her design.

Getting Things Mixed. Some years ago, as appears from a domestic revelation which took place on Saturday afternoon at one of the police courts, a man named Berryman married a very pretty little woman, with whom he lived, experiencing the ups and downs of domestic infelicity, for about one year. At the end of that time he deserted her. She went to law about it, and the law bound the man to allow her five dollars per week. He did so regularly until a few weeks ago, when he suddenly ceased payments. She then applied to the law again, and had her husband rearrested, when he asserted that he was not her husband, and had never been married to her. Piqued into finding out all about him that would be turned to his disadvantage, the woman discovered the existence of another lady who likewise claimed to be his wife, and whom it will be well to distinguish as Mrs. Number Two. Mrs. Number One took the matter so coolly that she had since got married again. Meanwhile Berryman had informed Mrs. Number Two for three years, or until he might legally get divorced from Mrs. Number One. His intention, however, he does not seem to have carried out, and, indeed, during the investigation at court a third Mrs. Berryman—as Mrs. Number Three—has stepped upon the scene, and laid equal claims to being loved, cherished, and protected by the polygamous party. The question as to which is which, and who is who, is to be decided by the Court of Quarter Sessions.

The First Anthracite Steel Rails. We copy from the Miners' Journal the following account of a most valuable invention in the iron manufacture. The first steel rails manufactured of anthracite pig metal, with the use of anthracite coal as a fuel, were made in this county a few weeks ago, and are now being made at the Tamaqua Rolling Mill, and a good article is being turned out. Eighty per cent. of No. 3 foundry iron is put into the puddling furnace or converter, and twenty per cent. of Leader-hill gray magnetic ore from York county,

which partakes of the ores from which the celebrated Woods steel is made in India. The patent for this new process was obtained last year, and it is the first time that good steel rails have been made with the use of anthracite iron and anthracite coal as a fuel in the puddling furnace. A very important feature of these rails is that they can be reworked and rerolled half a dozen times if desired, a thing which cannot be done with the rails made by the Bessemer process. This fact is an important one to those who use them, and will be appreciated because, while these anthracite steel rails are as good, they are, in consequence of their capacity to be reworked a number of times, at least one-third cheaper than rails made by the Bessemer process. It is known here as the Hall process, having been discovered last year while working at the Tamaqua Rolling Mill. They are now turning out these steel rails from 20 to 30 pounds to the yard, at \$120 per ton at the Tamaqua Rolling Mill, and will guarantee them. A specimen can be seen at the Anthracite Board of Trade Rooms. A 30 pound steel rail is said to be equal in endurance to a 35 pound iron rail. The machinery at the rolling mill is not of sufficient power to turn out heavier rails than thirty pounds to the yard.

CITY ITEMS.

For additional City Items see Inside Page.

SPRING OVERCOATS. BETTER IN STYLE, BETTER IN FIT, BETTER IN CUT, BETTER IN MAKE, than any others lately made in the city, at prices from \$5 to \$20.

YOU ARE SURE TO GET YOUR MONEY'S WORTH.—This new article seems to have been submitted to the most rigid and impartial scrutiny. A commission appointed by the American Institute have paid such an official compliment to its merits as is rarely vouchsafed by cautious science to any "new thing under the sun." A large proportion of the leading hotels and restaurant proprietors in New York use it, and urge its use by others, over their own signatures, and men eminent in science have voluntarily come forward and indorsed it as an economic culinary staple, and as an exceptional article of nourishment for the sick. The material from which it is manufactured—Carrageen or Irish Moss—is a lichen found in inexhaustible quantities on the coast of Ireland, and may be had for the gathering, without money and without price. Hence it will be cheap as long as the sea and the rocks last, which will be long enough for all practical purposes. Our main object in this article has been to place what we believe to be a subject of great importance in its true light, nothing more, nothing less. The Sea Moss Food is manufactured by a company whose central depot is at No. 53 Park place, New York.

RETAIL DEPARTMENT. 1870

MCCALLUM, GREASE & SLOAN, IMPORTERS AND DEALERS IN CARPETINGS, Warehouse, No. 509 CHESTNUT ST.

Spring Importations. NEW AND ELEGANT DESIGNS AT Greatly Reduced Prices. 1000 PIECES ENGLISH BRUSSELS, 1000 PIECES CROSSLAY TAPESTRIES.

FIRE AND BURGLAR PROOF SAFE. MARVIN'S SAFES. Are the Best Insurance! ALWAYS FIRE-PROOF! ALWAYS DRY!

Many Thousands of our Safes in Use.

MARVIN'S PATENT ALUM AND DRY-PLASTER SAFES TRIUMPHANT!!

BINGHAMTON, N. Y., Feb. 26, 1870. MESSRS. MARVIN & CO., No. 721 Chestnut street.

Gentlemen:—My house was entirely destroyed by fire on the 6th inst. The Family Safe I purchased from you in 1867 was in the fire, and was opened yesterday. The contents were in a perfect state of preservation, and after taking into consideration the TREMENDOUS HEAT, the safe lying (12) twelve hours in a pile of some (30) THIRTY TONS OF BURNING COAL, I deem it very remarkable that nothing should be injured inside. The inner Steel Chest is all right. I this day send the safe to your firm in New York.

Yours truly, W. DWIGHT.

MARVIN & CO., 721 CHESTNUT Street (MASONIC HALL), PHILADELPHIA.

265 BROADWAY, NEW YORK. 108 BANK STREET, CLEVELAND.

J. PERCY WARR AND ALEXANDER G. CATTELL, JR., have been admitted to an interest in our firm from this date. ALEXANDER G. CATTELL & CO. April 1, 1870.

NEW PUBLICATIONS. THREE NEW BOOKS! I. The Wittiest of Funny Books. THE BAN BALLADS; OR, MUCH SOUND AND LITTLE SENSE. By W. S. Gilbert. With 113 illustrations by the author. One volume, square 12mo., cloth bound, gilt edges, \$1.75.

These ballads, first published in periodicals, rapidly achieved a phenomenal popularity which soon demanded their publication in a collected form. Much of this is due to the series of inexpressibly funny drawings by the author, who is happy in being able to interpret his own humor in these admirable sketches, which we pity the man who cannot appreciate and enjoy them. While the Ballads themselves will rank with the best of Thackeray, Boswell, or Ingoldsby, the illustrations will favorably compare with those of Leech, Flax, Lear, or Doré. It deserves a prominent place on the book-shelf with the wittiest authors. Let every one in these dull times have the latest pleasure a copy as the cheapest remedy. While it is a nearly perfect fac-simile of the English copy, it is only half the price.

II. The Gentleman's Stable Guide, containing a familiar description of the American Stable, the most approved method of feeding, grooming, and general management of horses, together with directions for the care of carriages, harness, etc. By Robert Moore, M. D., V. S., author of "Diseases in the Stable, Field, and Farm Yard." With ample illustrations. 16mo., fine cloth, gilt, \$1.50. A handy manual, giving to the owner of a horse just the information of a practical nature that he often wants the need of, and by an author who thoroughly understands what he is writing about, and what is essential to every gentleman.

III. Staunton's Chess Book. The American Chess Player's Handbook, teaching the rudiments of the game, and giving an analysis of all the recognized openings, exemplified by appropriate games actually played by Morphy, Harrwitz, Anderson, Staunton, Paulsen, Montgomery, Meek, and others. From the works of Staunton. 16mo., with diagrams. Cloth, 68 cents, \$1.50. In this complete, practical manual those desirous of acquiring a knowledge of the art will find the results of the combined skill and genius of the best players of world-wide celebrity. The above three desirable books are this day published by PORTER & COATES, No. 822 CHESTNUT Street. 329 stp

WARBURTON'S IMPROVED VENTILATED AND AIR-TIGHT DRESS HATS (patented), in the improved fashion of the season. CHESTNUT Street next door to the Post Office. 119 stp
